

THE **SHERMAN-KLOVE** CO.

CHICAGO, ILLINOIS • U. S. A.

**WAR
ISSUE**

1943 TOOLS • TOOL AND TACKLE BOXES

FOREWORD

In order to increase tonnage of tools essential to the war effort, production of items deemed nonessential has been drastically curtailed. The end result of this policy has reduced the number of items which we are able to supply by about 40%.

The accompanying reprint in part of Schedule II of War Production Board Order L-216 sets forth in detail those tools previously furnished by us, which can still be manufactured. For complete information on our products please read the reprint carefully and check our catalogue and price sheets against your old buying records.

Tool sets, which have in the past contained items now effected by L-216, are suspended. In their place sets similarly numbered, but less the effected items, are offered. These "war issue" sets are the same as to content as previously offered except that the items effected by L-216 are omitted. For example our old No. 4502 Set is now 4502W. We omit the 40121 and 40131 — 21/32" and 31/32" 12 Point Sockets. Please note that the catalogue illustrations show peace time sets. When making sales, offer the listed contents and not contents as pictured.

Distributors are allowed to buy for shelf stock individual parts of 1/4", 3/8", 1/2" and 3/4" drives and individual box wrenches, also 1/4" drive tool sets.

Distributors are not allowed to buy for shelf stock tool sets of 3/8", 1/2" and 3/4" drives and box wrenches, also tool sets having any combination of 1/4", 3/8", 1/2" and 3/4" drives and box wrenches.

Distributors can purchase these sets only to fill specific orders from ultimate consumers.

Priority ratings of sufficient importance to secure delivery must, of course, be extended.

REPLACEMENT POLICY

S-K Tools proven to be defective will be replaced. Distributors are not authorized to make replacement of tools shown in this catalogue with the symbol "F", preceding the part number. Any of these tools showing a defect in workmanship or material will be repaired or replaced free of charge, if returned to the factory by the user, provided the tool has been used properly and does not show signs of abuse.

S-K Box Wrenches

RUST PROOF FINISH

The long type 45° gives the necessary leverage which is often needed, while the short type wrench makes accessible those tight places so often found on the modern automobile. Drop Forged. Precision broached. Walls are thin but exceptional strength is given by the best available Steels used in their manufacture.

SHORT TYPE

No.	Sizes	Length	Std. Cart.	Carton Wt.

S-K

S-K Reversible Ratchet Wrenches

Thumb Action Reverse
Rust Proof Finish

These Ratchets are what the mechanic has wanted for years — they have from 2 to 4 times as many teeth as are found in ordinary ratchet wrenches. This large number of teeth enables the mechanic to secure a new bite in each 5° to 6° of the circumference. Drop forged, all parts precision manufactured and carefully heat treated.

No. 4531W Set

Work on the modern automobile demands a complete range of straight wall, and Universal Joint Sockets, plus extensions, handles, and a reversible ratchet in the $\frac{3}{8}$ " sq. drive. This set includes all of these tools. It is packed in a hip roof chest, which contains a lift out tote tray with carrying bar. The tote tray is large enough to accommodate the 21 pieces of this set leaving ample room below for many additional tools. Has piano type hinge, hasp and bolts and round leather handle. Baked enamel finish. Overall dimensions 20" x 6" x 6".

The Tool Wagon illustrated complete with 113 Tools, enables the mechanic to buy an efficient quality unit at a price he can afford to pay. The two drawers and tote trays have ample space for the storage of these tools, leaving the large compartment below, which measures 12 1/2" x 18 3/8" x 26 3/4" open for storage of large body tools, jacks, etc. The removable tote trays enable the user to take any necessary tools out on an emergency job. The top drawer and drop front which are equipped with tumbler locks give the mechanic security against loss while away from the garage. The detachable valve holder will carry 16 valves. If desired the wagon can be rendered stationary by removal of the 3" casters. A durable Red and Black Wrinkle finish makes this a very attractive piece of equipment. Overall dimensions: 34" x 26 7/8" x 19".

No. 6702 Tool Wagon, Complete with 113 Tools.

Shipped Knocked Down.

* No. 6703, same as above, except the 3/4" Square Drive Tools are left out, making this a 90 piece unit.

Shipped Knocked Down.

Shipping Weight, 199 lbs.

Shipping Weight, 160 lbs.

*Items marked "SUSPENDED" have been dropped to make room for more necessary war production.

This cabinet work bench has many features not found in any other make. There is space for the orderly storage of the 71 tools listed plus room for twice as many additional tools without using the work bench top. The work bench top is available for use at all times. When open, the door of cabinet slides out of the way under top drawer. S-K "EASY-SLIDE" on Drawers and Tote Trays. The handy valve holder is detachable and will carry 16 valves. The tote trays can be carried to the job and these alone will hold 71 tools. The 3" casters can be taken off, making the wagon a permanent stand, resting on the two side aprons.

Attractive red and black wrinkle finish with two tumblers locks and two keys. Overall dimensions 34"x26 3/8"x19".

The selection of S-K Tools above listed covers the most important tools necessary for the widest variety of work.
