EXPLANATION OF THE

---

Aliquot or Interchangeable System of Bodies,

---

*For Types, Rules and Leads.*

---

---

**American.** (1) This is the unit of measurement, and is one-twelfth of Pica, or one-seventy-second of an inch. It is, of course, too small for a type body, but is used in leads and rules. Some series of letter require the American lead in lining the faces, where two or more sizes are used together in the same line; although its double, the Saxon lead, will accomplish this in most cases.

---

**German** ( $1\frac{1}{2}$ ) is  $\frac{1}{6}$  of Pica, and  $\frac{1}{4}$  of Nonpareil.

---

**Saxon** (2) is  $\frac{1}{6}$  of Pica, and  $\frac{1}{3}$  of Nonpareil. It is the most useful of the lead and rule bodies. Four Saxons are equal to a Brevier; five are equal to a Long Primer; six are equal to a Pica.

---

**Norse** ( $2\frac{1}{2}$ ) is  $\frac{1}{4}$  of Long Primer.

---

**Brilliant** (3) is  $\frac{1}{4}$  of Pica, and  $\frac{1}{2}$  of Nonpareil.

---

**Ruby** ( $3\frac{1}{2}$ ) is  $\frac{1}{2}$  of Minion, and  $\frac{1}{4}$  of English.

---

**Excelsior** (4) is  $\frac{1}{3}$  of Pica, and  $\frac{1}{2}$  of Brevier.

---

**Diamond** ( $4\frac{1}{2}$ ) is  $\frac{1}{2}$  of Bourgeois, and  $\frac{1}{4}$  of Great Primer.

---

**Pearl** (5) is  $\frac{1}{2}$  of Long Primer, and  $\frac{1}{4}$  of Paragon.

---

**Agate** ( $5\frac{1}{2}$ ) is  $\frac{1}{2}$  of Small Pica.

---

**Nonpareil** (6) is  $\frac{1}{2}$  of Pica, and  $\frac{1}{3}$  of Great Primer. Twelve Nonpareils make one inch exactly.

---

**Minion** (7) is  $\frac{1}{2}$  of English.

---

**Brevier** (8) is  $\frac{1}{2}$  of Columbian, and  $\frac{2}{3}$  of Pica.

---

**Bourgeois** (9) is  $\frac{1}{2}$  of Great Primer, and  $\frac{2}{3}$  of Pica. It is exactly  $\frac{1}{8}$  of an inch.

**Long Primer** (10) is  $\frac{1}{2}$  of Paragon.

**Small Pica** (11) is  $\frac{1}{2}$  of Double Small Pica.

**PICA** (12) is  $\frac{1}{6}$  of an inch.

14	$\frac{7}{7}$	$\frac{6}{8}$	$\frac{4}{10}$
----	---------------	---------------	----------------

**English** (14) is 2-lines Minion; a Nonpareil and a Brevier; an Excelsior and a Long Primer. A Pica and a Saxon lead justify with it.

16	$\frac{8}{8}$	$\frac{6}{10}$	$\frac{4}{12}$
----	---------------	----------------	----------------

**Columbian** (16) is 2-lines Brevier; a Nonpareil and a Long Primer; an Excelsior and a Pica; etc.

18	$\frac{9}{9}$	$\frac{6}{6}$	$\frac{8}{10}$
----	---------------	---------------	----------------

**Great Primer** (18) is 2-lines Bourgeois; 3-lines Nonpareil; a Brevier and a Long Primer. A Great Primer 3-em space is the same as a Nonpareil 3-em quad. Great Primer is exactly  $\frac{1}{4}$  of an inch.

20	$\frac{10}{10}$	$\frac{8}{12}$	$\frac{6}{14}$
----	-----------------	----------------	----------------

**Paragon** (20) is 2-lines Long Primer; a Brevier and a Pica; a Nonpareil and an English; etc.

----	-----------------	-----------------	----------------

**Double Small Pica** (22) is 2-lines Small Pica; a Long Primer and a Pica; a Nonpareil and a Columbian. A Great Primer and two Saxon leads justify with it.

**Double Pica** (24) is 2-lines Pica; 4-lines Nonpareil; 3-lines Brevier; a Nonpareil and a Great Primer; a Long Primer and an English; etc. It is exactly  $\frac{1}{3}$  of an inch.

# A BUSINESS TALK.

THE following pages contain more elaborate answers to questions often asked than we can conveniently write to each correspondent. It is intended to be an assistant and improvement to that part of our daily business.

## ACCOUNTS.

We do not wish to open accounts for small purchases. If a man rarely orders goods of us, has no account with us, no matter how responsible or well known he is, he should send the money with the order. If the nature of the case is such that he cannot tell the exact price, let him guess at it. If he sends too much money, the change will be returned with the article. The cases are very numerous where persons order by telegraph or postal card, "Send by mail, cut so and so." It seems trifling to refuse, yet our books are full of such charges. The postage and book-keeping cost as much as the goods, and—well, some very good men never pay small bills. If the money is sent, a little order will have as prompt and careful attention as if it were a thousand times as large; if you do not send the money, you may be asked to do so before the article is sent, and lose time, if not your job.

## BARTER.

From the generality of letters which come to us asking trade for old material, it looks as though we were expected to fix value without regard to *size, make, age, damage, or previous condition*. To do yourself justice, give a fair description of the article you want to trade us—a description which will be borne out by the article itself when we get it. If an old press is found on its arrival here to be damaged when it was said to be perfect, parts missing when it was said to be complete, of smaller size than it was described to us, we will surely *go back* on the trade. It must also be borne in mind that the trade offers made by us on old goods are not *standing offers*, but must be accepted at once to hold us, for they are made in view of present demand and circumstances.

## CASH.

The definition of *cash* is—money here with the order or on shipment, so that the goods can be *charged directly to cash*. If you want our price for goods sent C. O. D., or at thirty days, so state in your application.

## C. O. D.

To all parties not having an open account with us, small orders are sent by express, with bill collectable on delivery, unless otherwise agreed. Parties unknown to us, to secure prompt attention to their orders and avoid delays, should send a remittance with the order to cover express charges both ways. It should not be thought to reflect on a man's credit to have goods sent him C. O. D. It is simply one of the cheapest and safest ways of doing business.

## CORRESPONDENCE.

Attention cannot be called too often to the habit of many patrons to seek *general* where they want *special* information. A great deal of delay would be avoided if they wrote to the point. Do not ask for our list of second-hand goods, but write what *you want* to buy. Do not ask what discount we will make for cash, but state the goods wanted, and ask *cash* price for them. Do not ask on what general terms we will sell, but state what you want to buy and the terms *you want*. If you ask more than we can give, we can, at least, tell what modification of your offer we will accept. If you are a stranger to us, do not say, "If you want references, we can furnish them," but send them right along first thing. Come right to the point, and you will be apt to get prompt satisfaction.

### CREDIT.

There is probably no subject on which so much has been written in our constant correspondence as credit. Men write hourly to ask if we will sell on *time*, without saying *what* they want to buy, or what are their *references*, or on what *security*, or *how much time* they want.

To the established printer, who owns his office and has a reputation for prompt pay at home, there is usually no difficulty, on making proper representations, in obtaining as much business accommodation for his wants as can be had by men similarly situated in any other profession.

Credit will not be given to men of whom we know nothing. We must be assured, from some source, that a name is credit-worthy before we enter it on our books. When we agree to give over thirty days, we always understand we are to have notes, not because they are more safe than open accounts, but because they require less attention. Our account book has to take its monthly raking, and he who has an open account with us is *always subject to a sight draft*.

### COMPLAINTS.

We earnestly request our patrons to report to us at the earliest moment all cases of dissatisfaction, either regarding the quality of articles sold them, the charges for same, or the manner in which they are served. It is impossible, in a business as extensive as ours, for the proprietors to attend personally to every minute detail. Many abuses may creep in and remain unknown to us, unless promptly reported by the abused. Where a cause of complaint exists, be it ever so small, we are anxious to heal and cure it.

### DAMAGED GOODS.

When goods reach you in a damaged condition, your true course is to refuse to *touch* them; you should make the road or boat return them, and make good the damage. When you receive them you release the house that sent them, and you must take the consequences.

### ESTIMATES.

The printed estimates for offices sent out by type founders are usually fair selections, but are only intended as general guides. You are expected to look through the specimens and re-select the details according to your own taste. It is especially difficult to select a job office to suit the tastes of different printers, and it is best that the man who is to manage the office have a hand in the selection. Still, we are often called on to do it, and can come as near selecting the best office for the least money as anyone else. It is a good idea, when asking an estimate, to tell the *amount of money* the selection is to be limited to, and let us name the best outfit for the price.

### LONG TIME.

We constantly receive applications for office outfits, or parts of same, from persons who have little or no money, but expect us to fit them out and take pay in small installments, as they can make it convenient. A general fast-and-loose, free-and-easy arrangement is wanted. If we should open the door to this sort of credit, we could sell out our whole stock and retire from business in thirty days. It is only necessary to say here that nothing of the kind can be done with us.

### ORDERS.

Do not understand us as objecting to orders in *any shape*, but a hint to some correspondents may save them many errors and disappointments.

Do not mutilate this book. Order by name and number.

When ordering Book or Newspaper type, state whether or not Italic or Leaders are wanted.

When ordering Sorts, state number of face as well as body, or send a cap H and lower case m, as little used as you have.

When ordering Job type, such as Titles, Gothics, Antiques, etc., state whether or

not Quads and Spaces are wanted. They are not sent if not specially named in order, and charged extra when sent.

When giving measure for leads or slugs by ems without specifying body, Pica ems are always understood.

When ordering Brass Rules to be mitered, state whether the size given is to be inside or outside of miters.

When orders for mitered Double Rules are received, it is always understood that the heavy line is to be on the outside, unless otherwise stated.

When ordering Chases, send a diagram with the correct inside and outside measures marked.

When ordering material from a specimen book not our own, state name of Founder from whose book selections are made.

When writing an order, put each item on a line by itself, and do not mix things up; show plainly whether the quantity that follows or precedes an article is the amount wanted.

Always indicate the way of shipping, whether by railroad, steamboat or express.

When shipping old type, mark your own name on every package.

In ordering printing ink, state the quantity and price per pound or ounce of each kind you wish; also the name of the manufacturer, if you have any preference.

### OLD MATERIAL.

In buying a bill of goods, where you desire to turn in old material, always mention that fact in the beginning; then ship the old material at the earliest possible moment; box it well—unboxed goods go only at owner's risk; take regular bill of lading with weights mentioned; mark it with *our name* and *your own*, that there may be no mistake in making credit.

### REMITTANCES.

For large amounts, drafts on San Francisco are the standard thing, though any way that brings the money is acceptable to us. The express companies bring money packages very satisfactorily. Registered letters with cash enclosures always come safely, but should never be used where postal money orders can be had, as the latter are the safest and handiest things in the world, nor can they get put to wrong account, so that a tracer will not at once turn them up.

### REFERENCES.

Many men seem to think that the mere mention of another man's name is sufficient reference. For instance, Jones, of Oregon, writes to us to send him instantan a bill of goods, for which he will remit in thirty days. If *we want* references, he names his friend Smith, also of Oregon. Now, these men are both strangers to us. Jones is in a hurry for his goods. By the time we write somebody to find out who Smith is, and write Smith to find out what he thinks of Jones, Jones will have gotten over his hurry, and we will have lost a sale we might have been very glad to make.

Another man writes, asking whether we will sell him certain goods on sixty days, with *satisfactory security*. We probably hasten to say yes; and, after considerable correspondence, in which all details in relation to the goods to be purchased are settled, the order comes to hand in haste to be shipped, and we discover the security he offers, though entirely satisfactory to him, is far from being so to us. These common instances illustrate the importance of an early settlement of all questions of responsibility. If you wish to have us open an account with you, or to buy a bill of goods on time, and are unknown to us, assure us of your business character as the *very first step*, for we like to be sure we are right, then go ahead. A very good way of sending references is to ask your banker, who is usually known to some one in our city, to write a letter indorsing you, and send it to us. This usually enables us to come to the point at once.

### SECURITY.

The laws of California, Nevada, Oregon and Arizona make Leases on presses, material and type about the best security that can be given. Chattel mortgages are

also good security in Washington Territory and British Columbia. When purchasers therefore pay us half cash value on presses, we give long time on the balance, with security as above stated. Type is so ephemeral in its nature, that we require more than half cash in cases where long time is required on balance.

### **SECOND-HAND PRESSES**

Of standard kinds are not drugs in the market, as many of our correspondents seem to imagine. They sell lower than new ones, of course, but the supply is so much smaller than the demand, that they readily bring fair values in CASH. It is by no means uncommon to receive several orders with the money enclosed for the same press. Of course, the first comer gets it, and unless we can find duplicates of the press, we are left in a rather unpleasant attitude toward those who are disappointed. We mention this matter to show the importance of closing with an offer of this kind *at once*, if you want it. Delays are dangerous.

### **TO ESTIMATE WEIGHT OF BODY LETTER.**

To ascertain the quantity of body letter required for a newspaper or magazine, or any other work, find the number of square inches and divide the same by four, the quotient will be the approximate weight of matter in pounds; but as it is impossible to set the cases entirely clear it is necessary to add 25 per cent. to large founts, and 33 per cent. to small founts to allow for dead letter.

### **WORN-OUT TYPE AND MATERIAL**

Received in exchange for new, at the following rates: Old Type, 8 cents per pound; Stereotype Plates, 5 cents; Electrotype Plates, Leads, Slugs, etc., 4 cents. - In all cases delivered at our foundry free of expense to us.

Boxes should be marked plainly to our address, and should also have the name of the shipper marked thereon, and notification of shipment sent in advance.

### BREVIER.

A Fount of Type is an assortment of letters and characters, of the same style and body. A fount may be large or small; and it may contain more or less kinds of characters. A complete fount of Roman letter is composed of the following sorts: CAPITALS, SMALL CAPITALS, lower-case, figures, fractions, points, commercial marks, references, accented letters, quads and spaces. Other sorts may be added, when required, according to the nature of the work: as, for instance, mathematical and medical signs. Roman, or Body Letter, as founders call it, is cast and put up to schemes prepared for the purpose, which represent the proper proportions for usual requirements. Job letter founts vary in proportion, according to size, style and special use.

*Italic is put up in smaller proportionate founts to Roman than was customary fifty years ago. The old rule was one-tenth; while a five-pound fount is now considered sufficient for 200 pounds*

And I'll continue to curse and throw bones over 'em, dammum; and I'll take all the money there is, for I must have a ben-der. Send some low cuss who will haul 'em over a vault, squeal and move out.

*But here is to considerable silly nonsense. O Tomfoolery! O Moses! Send us that intelligent consul vidette, and let him rip it!*

But know, your sweetest strains are discords all, compared with childhood's happy laugh—the laugh that fills the eyes with light and every heart with joy. O rippling river of laughter, thou art the blessed boundary line between the beasts and men; and every wayward wave of thine doth drown some fretful fiend of care. O Laughter, rose-lipped daughter of Joy, there are dimples enough in thy cheeks to catch and hold and glorify all the tears of grief.

WE feel it to be important to draw your attention to the difference in quality of type that is cast of the ordinary type metal and that which is cast of our extra hard metal, inasmuch as the real value of a fount depends equally on its durability and its price. The respective strength of the two qualities may be ascertained by rubbing a type of each, face to face; or, what is better, the edge of one against the edge of the other, proving which sustains the least injury by the friction, and the types may then be broken so as to test their relative resistance, and to discover the density and tenacity of the metal, which, if good, will be whitish like cast steel, but if poor, will be blue and dull, like lead. It may be safely affirmed, from experience, that a fount of the best metal will work sharp and fresh fully twice as long as the common quality; it is therefore desirable, whatever prices

# BRASS CURVES AND CLAMPS.

Fonts of 170 Pieces. \$8.00.

We here exhibit the complete construction of a form containing straight and bent lines. It is intended to illustrate the use of our NEW IMPROVED PATENT BRASS CURVES AND CLAMPS. They are indicated by hyphen rule, and are made to hold lines of any shape and body firmly. The Clamps match nonpareil, brevier, long primer, pica, great primer, double small pica, double english, double great primer, and four-line pica, and are marked to designate body. All intermediate sizes, for instance, bourgeois can be clamped with long primer clamps in connection with a thin lead in order to make up for smaller body. They can be used in connection with 6-to-pica leads, enabling the printer to produce every possible variation of straight or curved lines. Lines clamped in this way, occupy scarcely any additional space, can never be thrown off their feet, and save a great amount of justification. All the reglets and quads required to lock up those ten lines in our little job are shown in print in order to prove these facts.

A very important item in blank work, having the face of fine dotted rule on bodies from six-to-pica upward. They are made to line with any face, and are cut in labor-saving lengths from one to eighteen ems pica.

# ADOPTED STYLES

*Patrons will avoid Errors, and possibly save themselves from unnecessary Delays,  
Annoyance and Expense, by observing the following Information:*

 THE styles of Type shown in this Supplementary portion of the Book will be kept *on hand, as regular stock*, only as long as they remain popular, and are sustained by reasonable demand.

 As they are selected from various Eastern foundries, and therefore not in harmony, altogether, as to body, we place them in a separate division of the Book, for the purpose of avoiding misunderstanding and confusion with our own bodies, which are on the fractional or aliquot system.

 Founts marked □ will justify with ours.

 Founts marked † will justify with the Scotch bodies.

 Orders for all type shown in this Book filled promptly. Any type not in this Book will be furnished in from four to five weeks.

 Please preserve all future specimens we may send you, as Supplements to this Book. NEVER cut a book, or sheet. Order by name and number.
