SELECTED AND ARRANGED BY

DAN X SOLO

Your message won't be ignored if it is emblazoned across the page in 3-D or shaded lettering. Here are a full 100 3-D and shaded alphabets to choose from, specially selected by Dan X. Solo from the Solotype Typographers Catalog. Designed to meet the needs of today's graphic artists, they include numerals, punctuation marks and in many instances upper- and lower-case characters. They are all immediately useable as printed; up to six words may be composed from these fonts and used in any single publication without payment to or permission from the publisher.

This selection includes Avant Garde Deco, Banknote Italic, Hadriano Stonecut, Vogue, Trump Gravure, Metallic, Push Up, Tintoretto, Sunrise, Fanfold, Incline, Bauer Topic Dimension; and shadowed and/or shaded forms of Cheltenham Extended, Cinema, Embrionic, Future, Globe Gothic, Spartana, Steelplate Gothic, Typewriter Open, Windsor, Helvetica, Palatino, and 77 other fonts.

These amazingly diverse alphabets are a unique design source for packaging and advertising, signs, book jackets and title pages, greeting cards, handbills, posters or any other project requiring a strong, eyecatching typeface. With the cost of setting specialty typefaces so high, just a one-time use of material in this book will more than repay the cost of the entire volume.

Original Dover (1982) publication. 100 plates. 104pp. 81/8 x 11. Paperbound.
